

Dear Members,

I am pleased to share the latest edition of the IETE Newsletter for IETE-SFIT SF. The IETE Student Chapter at SFIT began its journey in 2008, and today, we are proud to have 37 active members. With your unwavering support and encouragement, IETE continues to advance technical knowledge and build capabilities through various initiatives and programs.

In addition to our ongoing activities, IETE has broadened its reach with new skill development initiatives such as “Each One Teach One,” which aims to empower youth with education, skills, and employment opportunities. The primary goal of the IETE-SFIT Student Chapter is to raise awareness about cutting-edge technologies used in industries and to develop the all-around skills of engineers, while always keeping the interests of students at the forefront.

I would like to extend my sincere congratulations to the entire IETE-SFIT student council for their invaluable support in organizing these initiatives. Your contributions are essential to the success of our mission.

This issue also covers events such as:

- **Microsoft Power BI**
- **Glow Lagori (Space Day):**
- **VLSI: Powering the Future of Emerging Technologies**
- **ModelX: Innovate 3D**
- **Squid-X (Mosaic Event)**

I hope you find this newsletter both enjoyable and informative. We look forward to receiving your feedback and suggestions.

Warm regards,

Ms. Shilpa Chaman

Convenor, IETE-SFIT

Assistant Professor, EXTC Department
